The teleseminar will cover:

- How to fill your pipeline with hungry, easy to please fans who will practically beg for your live shows and music...and will NOT blink an eye when you charge \$19.95 for a digital download!
- the overlooked, “secret” easy internet promotion tools to get a huge surge of publicity and fans ...and how to get in on this “ground floor” opportunity!
- the irrefutable techniques of promotion that prove to your fans that they absolutely, positively MUST have your music and concert tickets...and how to get them pumped and ready!
- The sweet spot, or PERFECT instant when the planets align and everything comes together at the right time for maximum success with your fans...and the WORST time to promote to them (hint -this is what 99% of other indie artists do – don’t fall into this trap!)
- Turning lemons into lemonade – how to get fans who might have otherwise never heard of you!
