

# Das EFX- They Want EFX (Remix)

Das EFX's unique flow was discovered by EPMD who released their highly influential debut album *Dead Serious* in '92. Their mishmash of ragga infused syllables and speed with pop culture references made them an appreciated standout. The original version of this song rides on Jimmy Nolen's rhythm guitar but the remix puts synth horns and the guitar side by side. No other rap group has made the sewer look more appropriate for a rap video.
