

# Throwback: G-Dep-Let's Get It Featuring Diddy & Black Rob

G-Dep joined the Bad Boy family in 1999 and started out by making guest appearances on albums for Diddy and Biggie. His album *Child Of The Ghetto* was released in 2001 and ["Special Delivery"](#) was his first single and it gave him an identity as a solo artist. "Let's Get It" is the video that most credit with introducing the Harlem Shake dance. *Child Of The Ghetto* got G-Dep to the mainstream but longtime fans believe his best work was done before Bad Boy when he released mixtapes on the underground circuit. G-Dep later appeared on projects lead with Guru and DJ Premier. In 2007 he and Loon released the mixtape *Bad Boy* and he put another one out last year called *Deponomics*. He performed ["Special Delivery"](#) as recently as last May at The Elegant Hoodness Showcase.
