

Kickmag 2009 Album Of The Year - Sa Ra Nuclear Evolution: The Age Of Love

R&B has been in a safe rut for the longest with people like Meshell Ndegeocello and once upon a time Prince challenging it. Sa Ra's freaky style was fresh wind among all the predictable sounding releases. Hopefully the guys will do more releases as a group in addition to their writing and producing for others like Erykah Badu. See Sa Ra [review](#).
