

Unsung: Tammi Terrell

Tammi Terrell was a charismatic artist who helped set the standard for the R&B duet with her partner Marvin Gaye. She never got a chance to make an impression as a solo artist because she died so young at age 24. The average person knows nothing about her except her work with Gaye. This episode in the *Unsung* series will get rid of that knowledge gap and give us a chance to know something about Terrell the person. The season premiere of the show is September 13th at 10EST.
