Despite these farewells, Fat Beats will continue doing what it does best – bringing hip-hop to the people. Fat Beats Distribution has been renamed FB Distribution and continues to work with both independent and major labels. Likewise, Fat Beats Records is planning releases from a number of artists from their impressive roster, including ILL BILL, TruMaster/KRS-One, Black Milk, Trinity, Sha Stimuli, Q-Unique and more. The company's online store, FatBeats.com, which carries everything available in their retail locations and more, will remain the number one destination for hip-hop fans for all their music needs. Though these two landmarks may be closing, Fat Beats' persistence during tough times for the record industry proves it is still very much alive and well.
