

MP3: Mr. Brady – “Get Choze” Feat. Diamond D and Blu

While outside may feel like a winter wonderland, this next serving from Cali rapper Mr. Brady has a warm, laid back feel “one that harkens memories of past summer seasons” with “Get Choze,” the latest single from Labor of Love, Brady’s latest release on Clear Label Records. Produced by Brady, himself “Mr. Brady eschews rhyming on Labor Of Love, instead handling production duties for the entire album” the producer/rapper acquired the collaborative efforts of the legendary Diamond D and fellow west coast rapper Blu.

It was after a connection on MySpace between Brady and Diamond D that the track came to be, and with Brady’s vision to bring the old school and new school together, Blu added the perfect final piece. “I wanted to bridge the gap between the O.G’s like Diamond D and artists that I consider to be the future, like Blu,” explains Brady. “Nobody is really doing that right now and making it sound right, so I wanted to do something different, something that I thought would sound right.”
