Theophilus London releases his debut LP *Timez Are Weird These Days* on Warner Bros. Records worldwide on July 19th. Following a series of wildly popular independent mixtapes and the *Lovers Holiday* EP that landed him a performance on *The Late Show* with David Letterman earlier this year, *Timez Are Weird* arrives as Theophilus' most fully realized work to date: a wide-open album of original music, genre bending sound, mesmerizing storytelling and inspired, honest emotion.

Recorded in NYC, LA and Stockholm, *Timez Are Weird* showcases Theophilus as a rapper and a songwriter working with a small clique of producers. With John Hill, Dave Sitek, Jokke and Ariel Rechtshaid at the controls Theophilus Kicks off the album with rap credentials intact on "Last Name London" before moving through a surprising range of emotion, from party starting dance floor defiance to moments of quiet intimacy and introspection. *Timez Are Weird* exclusively features two guest vocalists: indie star Holly Miranda on "Love Is Real" and Sara Quin of Tegan and Sara on "Why Even Try."
