

Nas-A Queens Story

[youtube]VbY8vjiM-to[/youtube]

Nas's video for "A Queens Story" is a rugged piece of film meant to look more like a home video instead of a high-priced major label advertisement. His trademarked style of telling tough stories artfully is matched well with the constantly moving images of mostly street and entertainment stars from Queens. The rough aesthetic is Nas's homage to where he came from and those did and did not make it out of the hood.
