

Charles Bradley-Where Do We Go From Here

[youtube id="LMuu4h6RdyQ"]

“Where Do We Go From Here” is an example of where Charles Bradley’s never-ending tribute to James Brown departs and his own voice comes through. Psychedelic chords and Bradley’s endless vulnerability separates him from the Godfather’s pugilistic hard funk stance. Fans can see Bradley coming into his own performing from his *Victim Of Love* album on the [Super Soul Revue](#) that runs until July 14th.
