

Michael Jackson-A Place With No Name (Official Video)

[youtube id="YlJvMU-5NyA"]

Michael Jackson's visual for "A Place With No Name" became the first music video to debut on Twitter when it posted last night. The clip is mostly outtakes and behind the scenes footage from the video for his '92 single "In The Closet." "A Place With No Name" was written in '98 and inspired by America's "A Horse With No Name."
