

Jean Grae Releases The #5 EP

[#5 by Jean Grae](#)

Jean Grae is back into her music-making mode and she has released her #5 EP via Bandcamp. The 5-song project is more singing from Grae than rapping. As she says, “This is #5. I felt like doing something else. So I did. I really enjoy song crafting. The producing, the recording, the writing, the mixing, the everything. It’s short, but grown. Love ya” Judging from the lyrics it sounds like the twists and turns of an ended relationship and she also recalls a *Sign of the Times* Era Prince.
