

# Janet Jackson - Unbreakable Album Stream

Janet Jackson's *Unbreakable* came out today and it's already being praised as the best pop album from a veteran this year. This is her first album since 2008's *Discipline* and she built anticipation with the singles "No Sleep" and "BURNITUP" with Missy Elliott weeks before the album release. *Unbreakable* is streaming now and Jackson's *Unbreakable* tour resumes October 9th in Las Vegas.
