

Supastition-Black Bodies

[youtube id="raTwR_vxLe4"]

Supastition's Will Feagins Jr.-directed video for "Black Bodies" is a visual critique of the American establishment and its longstanding problems with racism and police misconduct. The genocide of Native Americans, slaves and The Tuskegee Experiment are just a few of the social crimes Supastition and Feagins bring to light in the video. "Black Bodies" is from Supastition's [*Gold Standard*](#) album out now.
