Nehru has already addressed all the fans who have noticed his take on the trap style of rap when he says, "I've been learning to have fun with my music again & it's been exciting to not only create what I feel is typically me, but what makes me happy and hyped when I hear it. I feel like experimenting with different styles is helping me grow into the artist I always wanted to be!" *Magic 19* comes June 3rd and you can get it from his [official site](#).
