[youtube id="Az17VbA8CwU"] Omar's four-song [*I Want It To Be*](#) EP comes out tomorrow and the video for the title song was posted online today. The singer/songwriter/musician gives a performance of "I Want It To Be" with the band at Terminal Studios in London. It is a rare year for him because he has two projects with the EP and the forthcoming *Love In Beats* album. Omar will be Stevie Wonder's special guest at Hyde Park on Sunday, July 10th. He will also be a member of the house band on the Javone Prince Show on the BBC2 starting July 19th.
