

Torii Wolf & DJ Premier-Shadows Crawl

Torii Wolf is a singer from Wantagh, New York and she is the first woman to have her entire album produced by DJ Premier. "Shadows Crawl" is from her forthcoming *Flow Riot* album and when asked about her sound Premier says, "Torii has such a weird, wicked style, It's just very left field" reminiscent of a Bjork or something like that. She is so unique and versatile; she writes, sings and is an accomplished guitarist and drummer. But image-wise, there is no comparison. Subject-wise, Torii is in a whole different place. Premier and Wolf are currently working on *Flow Riot*.
