

# Wyclef Jean-Hendrix

[vevo id="USK011090716"] Wyclef Jean's "Hendrix" is about the way Jimi Hendrix inspired him to be a rock star instead of choosing to be a drug dealer. The video has appearances from Tasha Smith and Michael K. Williams who play a couple struggling to survive. The video ends with Smith, Williams and their son having a confrontation that ends with all of them holding their hands up. Jean's *J'ouvert* album comes out in November.
