

Run DMC's Debut Album To Be Re-Released On Vinyl

Run DMC's self-titled 1983 debut album will be re-released on vinyl January 20th. The album was the beginning of their rise to becoming the first big commercial rap group. Super-producer Larry Smith added live instruments to Jam Master Jay's DJ work and created a sound that defined the '80's. The album was the first full-length rap album to achieve Gold status.
