[youtube id="5DmiDekfzkA"] Suzi Analogue's "Move/It/Off" is from her forthcoming *ZONEZÂ V.3* album and she debuted the song earlier this month on BBC 1 Radio. The video is a quick-moving clip of Analogue in the eye of the camera with a colorful Cadillac. ["Move/It/Off"](#) is available from the usual digital outlets and Analogue made a statement about the track. "At a time like now where so many heavy realities are falling on the marginalized people of our society – of our world – this song is meant to be both a physical catharsis and a refusal of the inadequate solutions being fed to us, we have to move and towards something better."
