[youtube id="oCnRhq4-j3k"] Boldy James video for "Do It" is a backdrop for woman boxer's training session through the streets of Detroit. "Do It" is from the forthcoming *House Of Blues* album and most fans are critical of his new trap sound preferring his old boom bap style. Some fans are even hoping *House Of Blues* will have a feature from Dave East, who originally signed to Mass Appeal before getting a contract with Def Jam. *House of Blues* comes out February 27th.
