

Reconcile Advocates For Change In Video For Woke Featuring Lecrae

[youtube id="VT1hDSKweJM"] Reconcile is usually classified as a Christian hip-hop artist but “Woke” featuring Lecrae transcends the sacred. He describes “Woke,”

“I can’t ignore or mute my experiences in America to appease anyone, I answer to God,” he says. “Too often our faith is confined to the walls of the church and we ignore the convictions God has given us. There are great injustices and pain throughout America and God has given me a voice to speak life into that.”

“Woke” is from Reconcile’s [Streets Don’t Love You](#) mixtape that came out today.
