

Kelela: Take Me Apart Album Stream

Kelela's *Take Me Apart* is here two years after her 2015 *Hallucinogen* EP. The Washington D.C. native worked with a variety of producers but wrote each song with collaborators. Her singular R&B is very much a composite of her R&B, jazz and alternative influences. She will start her [tour](#) of the United States and Europe later this month. Stream *Take Me Apart* below.
