

Throwback: Busta Rhymes-Touch It Remix

[youtube id="GDtn_FtU614"] *The Big Bang* is Busta Rhymes' seventh studio album and only one for Aftermath Entertainment. "Touch It" was the first single and the remix was a star-studded affair that became a co-gendered posse cut. Missy Elliott, Mary J. Blige, Rah Digga, DMX, Papoose and Lloyd Banks were all added to the remix and appeared in the video. There are cameos from Sean Paul, DJ Kay Slay, Swizz Beatz, Brooke Valentine, and boxers Félix Trinidad and Winky Wright. The rare moment of having some of hip-hop and R&B's most distinguished members together created a memorable video and a vintage party record. Busta Rhymes is getting ready for his 10th studio album and he just released the video for the dancehall-inspired ["Girlfriend"](#) featuring Tory Lanez and Vybz Kartel.
