

Heartstreets Drop Video For Kaytranada-Produced Single Blind

[vimeo id="238629046"] Montreal duo Heartstreets just released their video for the Kaytranada-produced "Blind." Gab Godon and Emma Beko have been friends since they were children and last year saw the release of their *You And I* EP. "Blind" is the first time they have been heard from since 2016's "Cruising With You." The video for "Blind" comes across like an abstract film and there are shots of the duo mostly outdoors with horses and the men who ride them.
