

# Rachel Kerr Shares Debut Single Alive

British R&B singer Rachel Kerr is somewhere between secular and gospel in her approach. The big-throated singer is preparing for her solo album and "Alive" is the first single. "Alive" is sung with such power because Kerr says the song is an,

*"Overcomers anthem for written for everyone who has survived what was meant to take them out."*

Kerr has already won a MOBO Award in her native England and has toured the world as an opening act for Lauryn Hill and Brandy. Her *Back To Music* EP was released in 2012 and "Alive" is poised to be placed in a big movie next year as well as her debut album.
