

Prophets Of Rage Drop Video For Hands Up

[youtube id="9nWmvf1soTY"] Prophets Of Rage have a video for "Hands Up" and it is a compilation of black and white tour footage. The clips of their shows move fast with the urgency of their message about being fed up with the state of the world. The idea that music with a message does not sell is destroyed by the camera's pans of the huge crowds at their shows. Prophets Of Rage self-titled [album](#) is out now.
