

Issa Rae's Covergirl Ad

[youtube id="hNs5Rk8PVEg"] Issa Rae's Covergirl campaign for their special edition Melting Pout Metallic lipstick looks like an outtake from her HBO series *Insecure*. Rae sits at the bar in a dark club saying funny pick-up lines to a mirror just like her character does on the show. At first, it is not clear if she really is talking to another person but it is soon revealed that she is alone and preparing for a potential new meet. Season 3 of *Insecure* does not have exact return date but it will more than likely be back in the of Summer 2018.
