

SonReal Performs An Acoustic Version Of My Friend With Babyface

[youtube id="ycj105xCEMU"] Canadian rapper SonReal connects with Babyface on a new video and version of his single "My Friend." SonReal's friend Dane Collision directs as the rapper and Babyface sit side by side on stage with dim lighting. "My Friend" is an autobiographical song about SonReal's father who passed last year. Their relationship changed from parent and child to friendship over time. SonReal recently released his debut album, *One Long Dream* that was driven by the popularity of his heavily-streamed "Can I Get A Witness." His [tour](#) named after the album will resume in his native Canada in February and has various stops in the United States until the Spring.
