

# Jay-Z & Beyonce Drop Everything Is Love Joint Album & Video For Apes\*\*t

[youtube id="kbMqWXnpXcA"]Jay-Z and Beyonce surprise fans at the beginning of their OTR II tour by dropping their debut joint album, *Everything Is Love* and the video for "Apesh\*\*t." The first single is a trap and dance hybrid with Beyonce's voice being touched by electronics. In the video, the couple goes through several costume changes in the Louvre museum in France. There are young Black people kneeling, a couple in a bedroom and several dancers. They end the visual by looking at the Mona Lisa together. Those who complained about a lack of new music for their current tour should be satisfied. *Everything Is Love* has appearances from Miguel and Pharrell and is streaming exclusively through [Tidal](#).Â
