

Nia Ekanem Shares New Single FADIN

Nia Ekanem had a good year in 2017 when his debut EP *It's Your Love* was lauded by the online music press and R&B fans worldwide. His gritty tenor returns with "FADIN" a new single about relationships. The British singer describes his music as "New Soul" and references its origins back to fellow Brit R&B artists that came before him. "FADIN" is the lead single from his new EP of the same name that does not have a release date yet.Â
