

Neneh Cherry: Broken Politics Album Stream

Neneh Cherry's *Broken Politics* is her fifth album and the title is an honest description of the music's focus. She previewed the material with the singles "Kong" and "Shot Gun Shack" that addressed the refugee crisis in Europe and gun violence. Four Tet produced the album that is far away from Cherry's "Buffalo Stance" days in its moody expanse of sturdy pop. Cherry has a few tour dates in the United States during November and next year she will travel and perform in Europe.
