

LAOLU Debuts All In Me EP

LAOLU reveals her debut EP *All In Me* after sharing three singles early this year. The nine-song project uncovers LAOLU's inner world and her struggles as a young artist in London, her personal life and past battles with depression. Three years ago she stopped making music to deal with her mental health but she has returned with the intimate observations of *All Of Me*. She released a statement about the journey to *All Of Me*:

"This EP represents a new beginning, I started this EP almost by force to get out of depression and though it was hard, I continued no matter what. There have been so many bumps and delays along the way but I achieved what I set out to do. New music, released from depression and I am doing what I love and what I am destined to do which is to sing and write music"
