

# Mark de Clive-Lowe Releasing Heritage II Album

Mark de Clive-Lowe's *Heritage* is getting another chapter with *Heritage II* coming out this Friday. The dreamy jazz-ruled sound of *Heritage* was the DJ and producer's most personal work because of its direct referencing of his Japanese and New Zealand ancestry. The album, which was released in February, consists of original material and interpretations of Japanese folk songs. *Heritage II* continues the musical dialogue of *Heritage* with more nods to de Clive-Lowe's explorations in jazz, hip-hop and electronic music. *Heritage II* comes out Friday, April 5th.
