K.R.I.T. and his people hang out at a mansion where they have a procession with a '70s Lincoln Continental, have dinner and a family gathering. The rapper told *Complex*,

"It's important more than ever to show the positive energy of life. The coming together of generations and the giving of knowledge. There's so much power in community and fellowship. I have been blessed to share positive energy with so many people [throughout] my career. Although negativity is everywhere we must feed our souls with the positivity around us."
