

Anderson.Paak Delivers Ventura Album (Stream)

Anderson.Paak delivers *Ventura* not even a full year after his Oxnard album. *Ventura* has already received a strong response because of Paak's "Make It Better" collaboration with Smokey Robinson. He has more good company with Lalah Hathaway, André 3000, Nate Dogg, Jazmine Sullivan, Brandy and Sonyae Elise. The artist is still resistant to a strict category but he's singing more and the songs are stylistically comparable to his critically acclaimed *Malibu* album.
