Credit: Renata Raksha

Flying Lotus offers an early listen of two songs from *Flamagra* with “Spontaneous” featuring Little Dragon and “Takashi.” Each tune is in the R&B universe with the latter going heavy as a funk instrumental. *Flamagra* comes five years after *You’re Dead* and has a team of great collaborators including George Clinton, Shabazz Palaces and David Lynch. The new album will be released May 24th.Â
