

Listen: Freddie Joachim Shares *Beyond The Sea Of Trees*

Freddie Joachim's *Beyond The Sea Of Trees* is jazzed-up boom-bap that never loses its cool. The California producer who got attention for making the beat for Joey Bada\$\$'s "Waves" which was later used by J.Cole is happy to see the release of his eighth album. The clear head-nodding instrumentals have guest appearances from Natalie Oliveri, Elijah Fox and FloFitz. Joachim's *Beyond The Sea Of Trees* revisits the longstanding relationship between jazz and hip-hop that goes back to Stetsasonic. Stream *Beyond The Sea Of Trees* below.Â
