

# The Urban Renewal Project Returns With Red Eye

The Urban Renewal Project reflects on their touring life with new single “Red Eye.” The hip-hop band recently performed in Jakarta, Indonesia at the Java Jazz Festival and that experience inspired “Red Eye.” Band member Elmer Demond says, “

*“We met some amazing people over there, and I studied with some local gamelan musicians and worked with them to record on authentic Balinese instruments for elements of this track (‘gamelan’ is the local Bahasa word for the Indonesian traditional orchestra).”*

“Red Eye’s” worldly flavored trap sound will be included on the band’s forthcoming *Love Glory Duty Death* EP. “
