

Lee Fields & The Expressions: Wake Up Official Video

Lee Fields & The Expressions have an animated video for their politically-minded "Wake Up." El Oms is responsible for the images of Lee amongst Colin Kaepernick, the American flag, immigrants and more. Fields' conviction about people becoming aware of the world they live in is heard and felt in his hearty delivery of soul. The band's second record for Crown Records, *It Rains Love* is out now and they are on [tour](#) this summer.Â
