

Black Milk Shares Black NASA Feat. Sam Austins

Black Milk and vocalist Sam Austins share their thoughts on attaining the American Dream when at a disadvantage on Milk's new single "Black NASA." He explained the second single from his *DIVE* EP in a press release:

“[‘Black NASA ft. Sam Austins’] represents a place where Iâ€”and many people of color are from. We have to make something out of nothing, as opposed to people who are handed the tools for success.”

Black Milk's first single from *DIVE* was [“If U Say”](#) feat. BJ The Chicago Kid. *DIVE* arrives August 2nd.Â
