

# Kongo Dia Ntotila Drop 180° The Remixes

Kongo Dia Ntotila's 360° album gets an update with 180° *The Remixes*. The band's original tribute to African dance music has the touch of labelmates Howie B, Ancient Lights and Static Cosmonaut among the remixers. Their fusion of jazz, reggae and blues is refashioned into dance-heavy grooves that utilize house music and Afrobeat. It is another expansion of their sound after adding a London-based horn section to their Congo-originated style. The remixes are designed to capture the ears of anyone who missed 360°.
