

Isaac Carree Leads New Album Release With HER

Isaac Carree reintroduces himself after a six-year break with the new single “HER.” The romantic feelings reference the love a man has for a woman inspired by Carree’s love for his wife. He says, “

“I love my wife she deserves NOTHING but the best! We’ve grown together, we’ve had our ups and our downs but she stuck with me by my side. She’s loyal, she’s a prayer warrior, she’s the mother of our child, so this song embodies how GRATEFUL to God I am for HER!”

It was in 2013 when Carree’s *Reset* was released and he is getting ready for his return with *No Risk...No Reward*. His gospel roots extend into R&B and this time his sound is being produced by Blac Elvis who has worked for Beyoncé and Usher in the past. It is Carree’s third solo album and it comes after he released his book *Service: My Life My Words. My Life. My Truth* and the start of his music conference The Pug in Atlanta.
