

Free Nationals See Release Of Debut Album

The Free Nationals have temporarily stepped out of their role as anderson.paak's band with the release of their self-titled debut album. They previously shared "Beauty and Essex," "On Sight" and "Eternal Light" giving fans a preview of the actual album. Syd, J.I.D., Chronixx and paak are a few of the guests on the 13-song collection. The December release ensures their placement on many year-end lists as of the best albums of 2019.Â
