

Ro James Gets Touchy Feely

Ro James sets the mood for intimacy with his newest single "Touchy Feely." The singer describes an encounter with two ladies to the sound of his guitar giving a low-key twang. There is no official word on a follow-up to *Eldorado* but it hasn't stopped James from creating baby-making anthems. James is currently [touring](#) Montreal, the East Coast and will be performing in Philadelphia on March 20th.Â
