

# Run The Jewels Release RTJ4 For Free

Killer Mike and El-P have released *RTJ4* two days early. In the midst of all the social unrest in the country now the duo said, "Fuck it, why wait the duo wrote explaining the early release. The world is infested with bullshit so here's something raw to listen to while you deal with it all. We hope it brings you some joy. Stay safe and hopeful out there." Pharrell, Mavis Staples, Zach De La Rocha, 2Chainz and more are on the album. Killer Mike gave a speech to the protesters in Atlanta last weekend and he also discussed the uproar over the George Floyd shooting on *The Late Show With Stephen Colbert*. *RTJ4* can be streamed from the usual sources and downloaded for free from their [website](#).
