

Disclosure Unleash Two Versions Of Birthday Feat. Kehlani & Syd

Disclosure reveals two versions of their new song “Birthday” featuring Syd and Kehlani. There is the laidback original and the uptempo VIP remix from their upcoming album *Energy*. Group member Howard Lawrence said the song came from a feeling that he and Syd shared about whether it’s OK to contact an ex on their birthday. *Energy* is their third album and it comes out Friday. The duo will celebrate the album’s release with a virtual experience via the *Minecraft* video series.Â
