

Listen: Calvin Richardson-Be Your Friend

Calvin Richardson shares “Be Your Friend” from his *Gold Dust* album. Richardson promises unconditional love straight from the heart. It’s the perfect sentiment to release around Valentines’ Day. He explained in a statement what he meant,

“One of the most fulfilling relationships to be had...’Be Your Friend’ takes you there by describing the bliss of just having someone you can call on through thick and thin, who wants to be there for you.”

Gold Dust is Richardson’s latest release in a long legacy of great love records. As a singer and songwriter who has penned timeless songs with people like Angie Stone, Raphael Saadiq and Babyface, his current music has helped so many who believe in love get through the quarantine.
