

Maxwell's Off Introduces Last Part Of Trilogy

Maxwell introduces the third installment of his love trilogy with new single "Off." The R&B crooner's romantic overtures are demure and poetic. As is custom he sings like the happiest groom on his honeymoon with sparse production leaving him almost acapella. The excitement is low-key but burns a mild flame that has the potential to grow into heated passion on the rest of the album. The slow walk to *blacksummers'NIGHT* was referred to last when *blackSUMMERs'night* came out in 2016. It will be the third and last of the series that started in 2009 with *BLACKsummers'night*. The completion comes out in the Spring of 2022. He goes on tour with Joe and Anthony Hamilton in March of next year to support the album.
