

Thundercat Makes Acting Debut In Star Wars Series

Thundercat is in front of the camera as an actor now with a role in Disney+ show *The Book Of Boba Fett*. He appears as The Modifier in Chapter 4-The Gathering Storm. As a lifelong *Star Wars* fan, the artist couldn't be happier to be part of the legacy. Thundercat previously voiced *Grune The Destroyer* in the Cartoon Network's *Thundercats Roar* but the new role will be his first time appearing as television actor. The ever-busy musician just finished his tour for *It Is What It Is* which took home the Grammy for Best Progressive R&B album at the 2021 awards. In the Spring he will go on a European and North American tour with the Red Hot Chili Peppers. *The Book Of Boba Fett* is streaming now on Disney+ with new episodes debuting every Wednesday.Â
